FEELING ELECTRIC.

EXPLORE THE MINI ELECTRIC.

If you're looking for a car that's all torque, as well as action, then let us introduce the latest MINI Electric. It feels better than ever, with immediate oomph thanks to instant torque. And it looks better than ever too. With a sharper, sleeker update to its legendary MINI look and, of course, that MINI Electric feeling. The MINI Electric is the best of both worlds, giving you the iconic character of MINI with all the benefits of going electric. Emitting zero emissions when driving, it's the perfect combination of sustainable driving, thrilling driving performance and iconic MINI design. The MINI Electric is reinventing urban life.

MINI ELECTRIC LEVEL 2
FROM €39,985 OTR

RAISE THE STANDARDS.

STANDARD EQUIPMENT HIGHLIGHTS.

EXTERIOR:

- LED headlights
- LED rear lights
- MINI e-badge

INTERIOR:

- Automatic dual zone air conditioning
- Design highlights in Yellow
- Digital cockpit display
- Multi-function controls for steering wheel
- Sport leather steering wheel
- Sport seats

TECHNOLOGY:

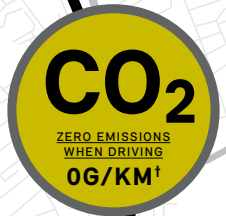

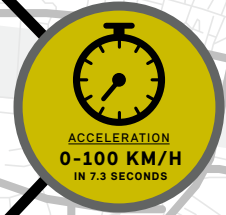

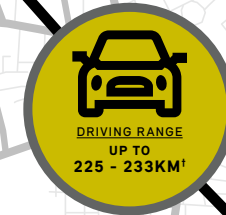

- Acoustic pedestrian protection
- Automatic transmission
- Cruise control with brake function
- Electric parking brake
- Heat pump
- MINI Driving Modes
- Rain sensor and automatic headlight activation
- Two levels of power regeneration

INFOTAINMENT:

- DAB digital radio
- eDrive Services (ability to initiate charging, monitor charging status and locate public charging stations)
- MINI Teleservices
- Navigation Pack
Comprising MINI Navigation, Visual Boost, MINI Connected, ConnectedDrive, Remote Services, Apple Car Play, RTTI

CHARGING:

- AC and DC charging
- AC home (occasional 3-pin plug) Flexible charging cable (type 2 - 2.3kW). Flexible charging cable can charge up to 11kW with optional interchangeable adapter, and a suitable power source.
- AC public charging cable (type 2 - 11kW)

[†]These figures were obtained after the battery had been fully charged. The MINI Electric is a battery electric vehicle requiring mains electricity for charging. These figures were achieved using the WLTP test procedure. WLTP has been used as the applicable CO₂ figure from 1 January 2021 for vehicle registration tax (VRT). Figures shown are for comparability purposes. Only compare fuel consumption, CO₂, electric energy consumption and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Charging points on the map shown may not reflect actual charging locations, for charging locations please check out ESB or the MINI App. [†]For more information about MINI Charging please visit [MINI-Charging.com](https://www.mini-charging.com)

CONVENIENT CHARGING SOLUTIONS.

HOME AND PUBLIC CHARGING.

EASY HOME CHARGING OR CHARGING ON THE GO.

The MINI Electric includes AC for easy home and public charging and DC for rapid public charging.

CHARGING CABLES.

The MINI Electric comes with both an AC home (occasional 3-pin plug) Flexible charging cable (type 2 – 2.3kW) and an AC public charging cable (type 2 – 11kW) as standard.

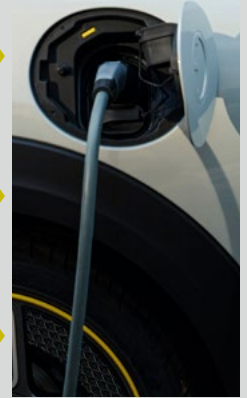

PUBLIC CHARGING.

You can use both AC public charging and DC rapid chargers (with their own cables ready to use). There are currently over 1350 public charging points across the island of Ireland.

HOME CHARGING.

You can charge your car at home using the AC home (occasional 3-pin plug) Flexible charging cable (type 2 – 2.3kW) or your Homecharge unit.¹

CHARGING TIME.²

Home charging (AC)

With AC home (occasional 3-pin plug) Flexible charging cable (type 2 – 2.3kW)	2.3kW	from 12 hours
With Homecharge unit ¹	7.4kW	from 3 hours 12 minutes ³

Public charging (AC/DC)

With AC public charging	11kW	from 2 hours 30 minutes ⁴
With DC rapid charger	50kW	from 36 minutes ⁵

PARTNERSHIP WITH POD POINT.

For home charging you can use the Pod Point Solo 3 Homecharge unit. For more information please [click here](#).

¹Source: ESB. ¹The Homecharge unit is not included in the price of the car, it has to be purchased separately. For more information please speak to your MINI Retailer. ²Charging time corresponds to an 80% charge. Charging times are approximate and may vary depending on various factors such as the type and condition of the charger and the temperature of the battery at the point of use. ³Charging time applies to any 7.4kW Homecharge unit. ⁴A 100% charge is achieved from 3 hours 30 minutes. ⁵A 100% charge is achieved from 1 hour 24 minutes.

COSTS AND TOP TIPS.

HOW MUCH DOES IT COST TO OWN A MINI ELECTRIC?

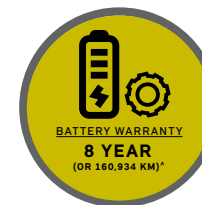

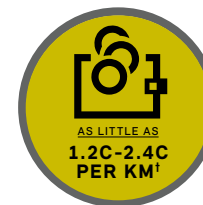

FINANCIAL PERKS.

The government currently offers an SEAI grant of up to €5000 and a Vehicle Registration Tax (VRT) rebate of up to €5000 towards your new MINI Electric.* Plus, if you're considering the new MINI Electric as your company car, it will have a BIK tax rate of 0% for the year 2022/2023.

To find out more about the benefits of owning electric vehicle please [click here](#).

CHARGING COSTS.

An electric car charge consumption is around 15 kWh for every 100 kilometres. Hence, if you charge your car, it is going to cost you anywhere between €1.20 and €2.40 per 100 km.†

* The receipt of these grants is subject to the eligibility criteria at the point of the vehicle's first registration in Ireland. The grant amount and vehicle eligibility may change from time to time following Government policy or regulation.

† Source: [epower.ie August 2022](#) ‡ The Warranty on the battery is 8 years or 160,934 km, whichever is reached first.

LIVING WITH ELECTRIC.

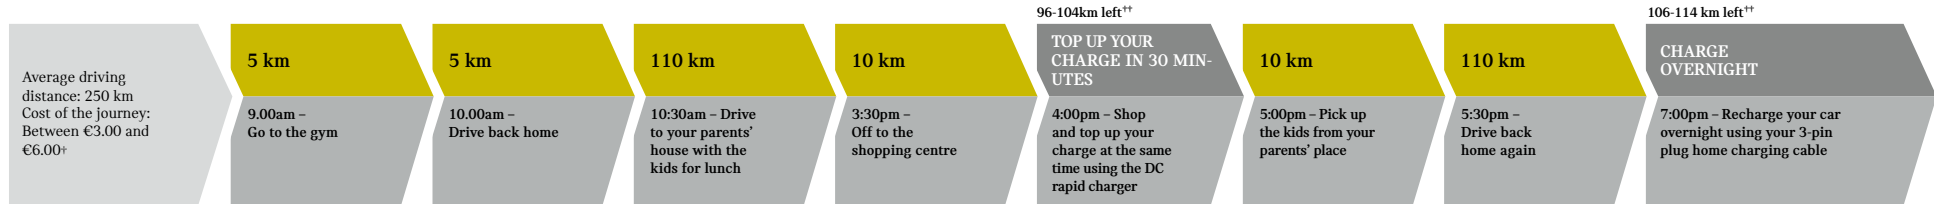

IDEAL FOR SHORTER OR LONGER JOURNEYS.

Your life may evolve. Your schedules may vary. But the MINI Electric will accommodate you for shorter or longer journeys.

YOUR AVERAGE WEEK DAY.

YOUR TYPICAL SUNDAY.

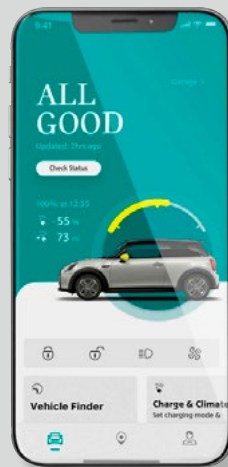

*Cost based on cost per kilometre between 1.2c and 2.4c. Source: epower.ie August 2022. **For illustration purposes only and based on the estimated driving electric range of 225-233 kilometres. These figures were obtained after the battery had been fully charged. The MINI Electric is a battery electric vehicle requiring mains electricity for charging. These figures were achieved using the WLTP test procedure. WLTP has been used as the applicable CO₂ figure from 1 January 2021 for vehicle registration tax (VRT). Figures shown are for comparability purposes. Only compare fuel consumption, CO₂, electric energy consumption and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

MINI APP.

With your MINI Electric, the MINI App includes some unique remote features:

- Pre-condition your car remotely
- Search for charging stations near your car or any location
- Check the range remotely
- Check the charging status remotely
- Start charging your car remotely
- Assess the driving efficiency of your latest journey
- To get the MINI App simply download the App from your compatible Smartphone App Store.

For more information please check out the MINI App, visit mini.ie/connected for more information.

MINI OWNERSHIP

IT'S YOUR MINI, BE BOLD.

MINI ELECTRIC SERVICE INCLUSIVE.

With MINI Service Inclusive, you can cover your servicing costs for a guaranteed time¹. Protected from price rises or inflation you're good to go.

For more information please contact your local MINI Centre.

GENUINE MINI ACCESSORY PACKS.

Our handy accessory packs provide all of the functional and practical solutions you might need. Buying a pack provides a saving compared to purchasing the accessories individually.

Speak to your MINI Centre about which Accessories Packs are available with your MINI.

MINI ELECTRIC PAY MONTHLY.

The cost for your MINI Pay Monthly Service Plan¹ is fixed for its duration, so you're protected against inflation and any price rises that might happen in the future. If you ever come to sell your MINI, you'll have the option to keep the plan and transfer any unused balance to your new MINI, so no worries about not using all of it.

For more information please contact your local MINI Centre.

Q Is the MINI Electric only available as a 3-door?

A Yes.

Q What is the Warranty on the battery?

A The Warranty on the battery is 8 years or 160,934 kilometres, whichever is reached first. The battery is also included in the price of the car.

Q Are there single options available to select?

A Yes, you can now personalise your MINI Electric even more with the single options offered on both Level 2 and Level 3, such as Roof rails, Darkened rear glass, Piano Black Exterior and even a Multitone roof. A large selection of paint and wheel options are also available on Level 1, Level 2 and Level 3 at no extra cost.

Q How much does it cost to charge the MINI Electric?

A Day cost of charging an electric car in Ireland is €0.16 per kWh, but at night this price drops to €0.08. Source: epower.ie August 2022

Q How can I find public charging stations?

A Just use the MINI App on the move or see the charging locations integrated into your Sat Nav! To find MINI Charging points you can also check the MINI Charging website: MINI-charging.com

Q How and where can I charge my car?

A You can charge your car at home using your AC home (occasional 3-pin plug) Flexible charging cable (type 2 - 2.3kW). You can also charge your car at one of many public charging points across Ireland, using either AC or DC charging.

TAKE THE NEXT STEP.
